Subject Categories

Food Science

Sustainability Science

Target Audience

This journal is intended for researchers, academics, practitioners, and industry leaders engaged in the dynamic and evolving field of sustainable food science.

Amin Naser Olaimat

Editor-in-Chief

Hashemite University, Jordan

Message from EiC

Sustainable Food Connect focuses on genuinely scientific and innovative methods that address significant challenges in the food system from farm to table. It aims to encourage research that finds solutions to support achieving the United Nations' Sustainable Development Goals by offering sustainable, healthy foods with prioritizing high quality and safety.

Aims and Scope

Sustainable Food Connect is a peer-reviewed, open-access journal dedicated to sustainable food practices. This journal aims to publish innovative research and promote significant advancements in the production, processing, distribution, and consumption of food in an eco-friendly manner.
